

Maps with coordinate grids

Grade 4 Geometry Worksheet

Study the coordinate grid and answer the questions.

MAP LEGEND	
	Elephant
	Lion
	Bird
	Giraffe
	Horse
	Monkey
	Crocodile
	Fishes
	Snake
	Panda

QUESTIONS:

- Which coordinate point is the monkey located at?
- What animal can be found at the point $(-1, -1)$?
- What animal can be found at the point $(4, 2)$?
- Which coordinate point is the bird located at?
- What animal can be found at the point $(4, 5)$?
- Which coordinate point is the horse located at?
- Which coordinate point is the panda located at?
- Which coordinate point is the lion located at?
- What animal can be found at the point $(-2, 5)$?
- What animal is on x-axis?

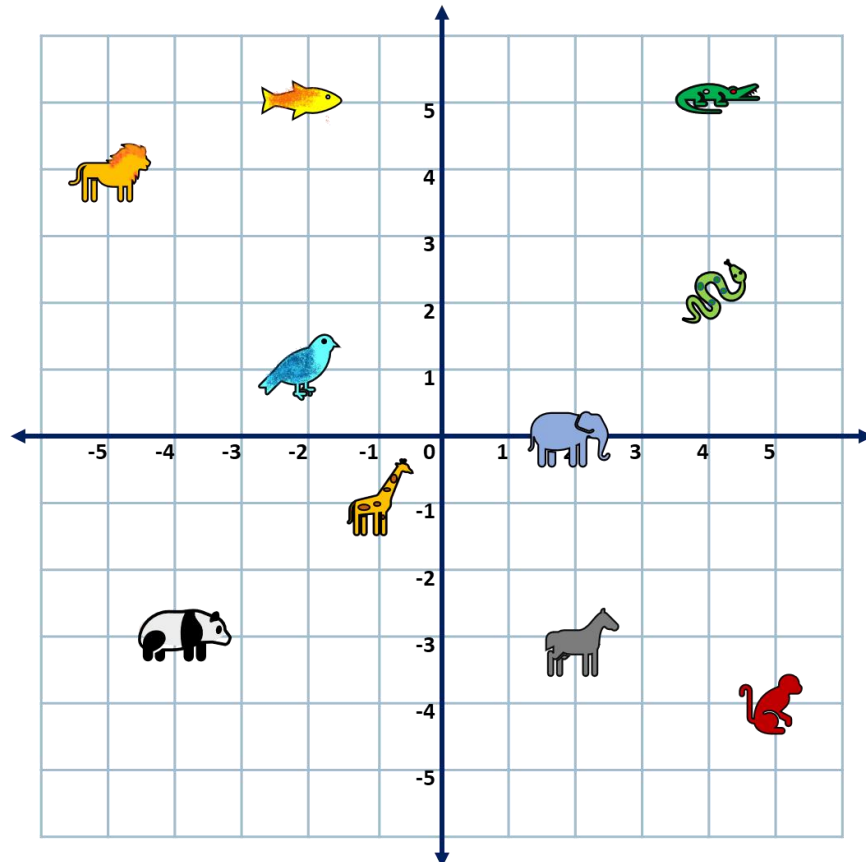

Maps with coordinate grids

Grade 4 Geometry Worksheet

Study the coordinate grid and answer the questions.

MAP LEGEND	
	Elephant
	Lion
	Bird
	Giraffe
	Horse
	Monkey
	Crocodile
	Fishes
	Snake
	Panda

QUESTIONS:

- Which coordinate point is the monkey located at? (5,-4)
- What animal can be found at the point $(-1,-1)$? Giraffe
- What animal can be found at the point $(4,2)$? Snake
- Which coordinate point is the bird located at? $(-2,1)$
- What animal can be found at the point $(4,5)$? Crocodile
- Which coordinate point is the horse located at? $(2,-3)$
- Which coordinate point is the panda located at? $(-4,-3)$
- Which coordinate point is the lion located at? $(-5,4)$
- What animal can be found at the point $(-2,5)$? Fish
- What animal is on x-axis? Elephant
