

Face mask and gloves pictograph

Data and Graphing Worksheet

These two pictographs compare the number of face masks and gloves the factory produced in 5 days.

Study the pictograph and answer the questions below.

1. How many face masks were produced on day 2 and 3? _____

2. On which day did the factory produce 5,500 face masks? _____

3. How many gloves were produced on day 3? _____

4. How many face masks and gloves were produced on day 5? _____

5. How many more gloves were produced on day 3 than day 2? _____

6. If the factory would double the production of gloves on day 1, what would be the total for that day? _____

Answers

Day	Number of face masks	Day	Number of gloves
Day 1	     	Day 1	   
Day 2	    	Day 2	  
Day 3	    	Day 3	    
Day 4	     	Day 4	     
Day 5	   	Day 5	   

 = 1,000 face masks  = 500 face masks

 = 1,500 gloves  = 750 gloves

How many face masks were produced on day 2 and 3? 9,500

On which day did the factory produce 5,500 face masks? Day 4

How many gloves were produced on day 3? 6,750

How many face masks and gloves were produced on day 5? 9,250

How many more gloves were produced on day 3 than day 2? 2,250

If the factory would double the production of gloves on day 1, what would be the total for that day? 12,000
