

Write topic sentences

Grade 3 Writing Worksheet

Write a topic sentence for each of the paragraphs.

A topic sentence tells the reader the main idea or what your writing is mostly about. It is usually the first sentence in a paragraph.

First, you squeeze some ketchup onto a slice of bread. Then you add two slices of cheddar cheese. Then you add three pickles. Finally, you place one more slice of bread on top. Now you've made my favorite sandwich!

If my dog could fly, I wouldn't have to take him on walks anymore. That means I would have lots more time in my day. Plus, if I could invent something to help my dog fly, he could help me get places quickly. I could ride on his back like he was a big, strong bird. If I could invent anything, I would definitely invent something that helps my dog fly!

Answers

Answers may vary slightly.

1. You can make my favorite sandwich in three steps.
2. I would like to invent something that helps my dog fly.
