

Harvest time scaled bar graph

Data and Graphing Worksheet

William recorded the number of sacks of crops for five months. Create a bar graph and answer the questions.

Month	May	June	July	August	September
Number of sacks	35	20	45	55	30

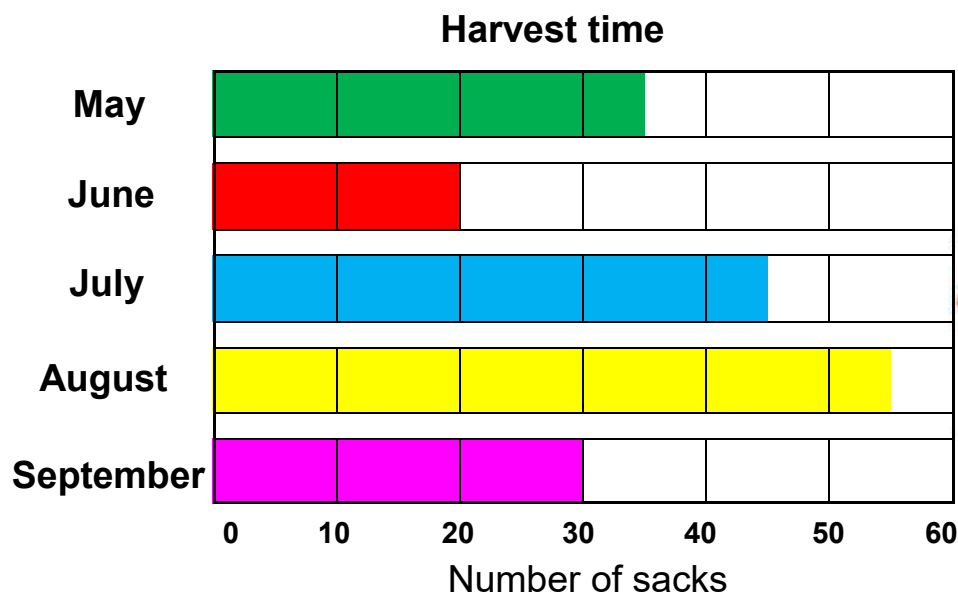

- Which month did he harvest the fewest sacks? _____
- How many more sacks did he harvest in July than May? _____
- How many sacks did he harvest in June, August and September? _____
- How many months did he harvest fewer than 35 sacks? _____
- How many months did he harvest more than 30 but fewer than 55 sacks? _____
- If William harvested 15 more sacks in September, he would have the same amount as in which month? _____

Answers

Month	May	June	July	August	September
Number of sacks	35	20	45	55	30

Which month did he harvest the fewest sacks?

June

How many more sacks did he harvest in July than May?

10

How many sacks did he harvest in June, August and September?

105

How many months did he harvest fewer than 35 sacks?

2

How many months did he harvest more than 30 but less than 55 sacks?

2

If William harvested 15 more sacks in September, he would have the same amount as in which month?

July
