

## Finding adjectives

### Grade 3 Adjectives Worksheet

Circle the adjectives in the story.

Nathan's family went to the beach last summer. His mother packed their big suitcases with several bathing suits, large beach towels as well as many summer outfits. They placed the blue suitcases in the back of their vehicle and took their places. Nathan's dad drove from their house to the nice cottage they rented on the beach. They parked the car and brought their bags into the cottage. Nathan picked a cozy room with bunk beds. His sister chose the pink room. Their parents took the largest room. There was a tiny kitchen in the cottage and an equally small living room. Soon, they were ready for their first afternoon at the beach. Carrying their light beach bags, wearing flip flops, they walked on the sandy beach near the sea. The kids played in the gentle waves while their parents looked at them from the beach. They had a wonderful time and plan to return next summer.

Hint:

*Adjectives are words that describe nouns.*
