

Using a benchmark to estimate lengths (inches)

Grade 2 Measurement Worksheet

Use quarters (real ones or cut-outs from the end of this worksheet) as a benchmark to measure the following objects. Then estimate the length of these objects in inches.

Each quarter is about 1 inch wide.

Length:
_____ quarters

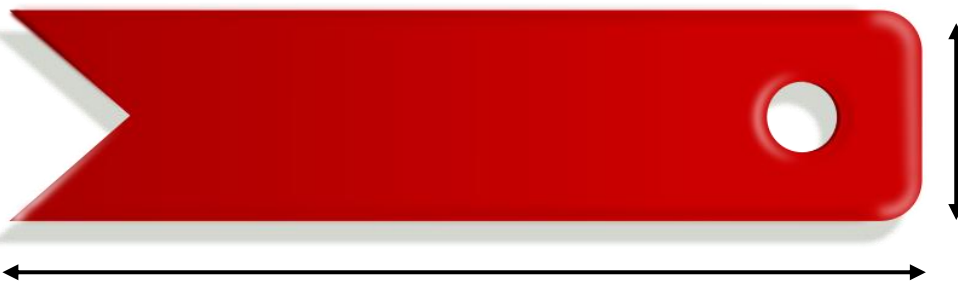

Height:
_____ quarters

Length of this tape dispenser:

_____ inches

Height of this tape dispenser:

_____ inches

Width:
_____ quarters

Length:
_____ quarters

Length of this book mark:

_____ inches

Width of this book mark:

_____ inches

Cut out the rows of quarters along the dotted line.

Answers

Pair of Scissors

Width: 2 quarters

Length: 6 quarters

Width: 2 inches

Length: 6 inches

Notebook

Width: 3 quarters

Length: 4 quarters

Width: 3 inches

Length: 4 inches

Tape Dispenser

Height: 1 quarters

Length: 2 quarters

Height: 1 inches

Length: 2 inches

Bookmark

Width: 1 quarters

Length: 5 quarters

Width: 1 inches

Length: 5 inches
