

Prediction: Finish the story

Grade 2 Reading Worksheet

Read the beginning of the story.

When you **make a prediction**, you use clues to guess what will happen.

The Missing Puppy

The wind was blowing hard, and the sky was dark. Ben called for his dog, Daisy. Daisy was his little brown puppy. Daisy is scared of storms. She always comes inside before it rains. Then she lies next to Ben until the storm passes. She hates when it thunders.

Today, though, Daisy didn't seem to be inside! Ben ran to the back door and peeked outside. The yard looked empty. "Where could she be?" he asked himself.

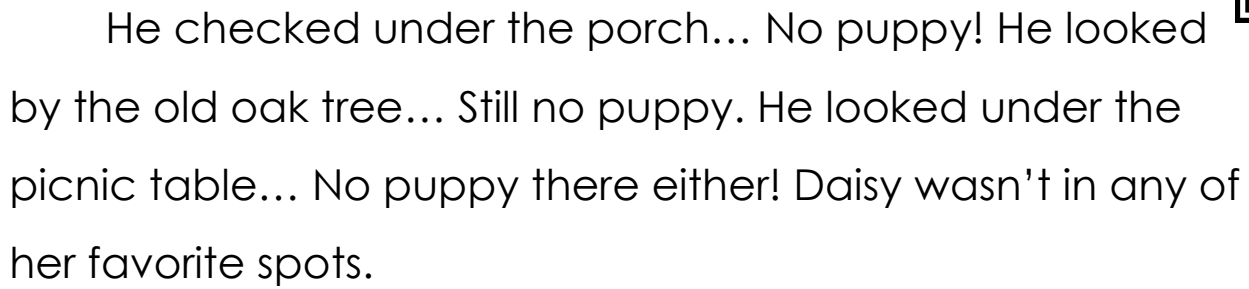

Ben grabbed his raincoat and boots. "I'm going out to look for Daisy!" he told his mom. "She's not inside."

"Come back in soon!" his mom said. "It looks like there is going to be a storm. I don't want you to get wet."

Outside, the wind blew leaves everywhere.

"Daisy! Daisy! Where are you?" Ben called.

Ben turned to go back to the house. He thought maybe she was hiding upstairs. Just then, Ben heard a bark from the shed. He hadn't looked in there! Ben ran over and saw that the door was closed. Then he looked more closely. Under the door, he could see some brown fur sticking out.

Just then, the wind started blowing even harder. Big raindrops started to fall. The sky got darker, too!

What do you think will happen next? Use clues from the story to write the ending.

[illegible]

Answer

Based on clues from the story, it is likely that Ben is going to find Daisy in the shed and then bring her inside.
