

# Tally marks for shapes

## Data and Graphing Worksheet

Cross out the shapes, adding tally marks to the table.

Write the total number of each shape.

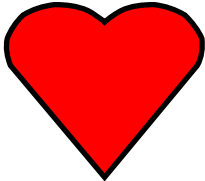

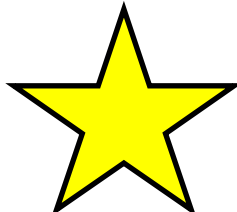

| Shape                                                                               | Tally marks | Total |
|-------------------------------------------------------------------------------------|-------------|-------|
|  |             |       |
|  |             |       |

## Answers

| Shape                                                                               | Tally marks                                                                         | Total |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|-------|
|  |  | 6     |
|  |  | 9     |
