

Sequencing

Grade 2 Comprehension Worksheet

A **sequence** is when you put things in order, starting with the first thing and ending with the last thing.

1. **Put these stories in order! Write “1” next to what happened first, “2” next to what happened second and so on.**

1, 2, 3 or 4?

The goldfish quickly swam to the top of the tank.	
Lauren sprinkled fish food into her goldfish's tank.	
It then swam happily around the tank, looking for more.	
The goldfish ate the little flakes of food.	

1, 2, 3 or 4?

The baby laid on the bed while his mom picked out his clothes.	
After the shirt, the mom pulled on tiny pants and socks.	
The mom gently put the baby's arms through a shirt.	
The baby smiled when he had his new outfit on!	

2. Think about what happens when you play your favorite game. Write four of the main events in order!

First,

Then,

Next,

Last,

Answers

1. Put these stories in order! Write "1" next to what happened first, "2" next to what happened second and so on.

1, 2, 3 or 4?

The goldfish quickly swam to the top of the tank.	2
Lauren sprinkled fish food into her goldfish's tank.	1
It then swam happily around the tank, looking for more.	4
The goldfish ate the little flakes of food.	3

1, 2, 3 or 4?

The baby laid on the bed while his mom picked out his clothes.	1
After the shirt, the mom pulled on tiny pants and socks.	3
The mom gently put the baby's arms through a shirt.	2
The baby smiled when he had his new outfit on!	4

2. *Answers will vary.*
