

Maps with coordinate grids

Grade 4 Geometry Worksheet

Study the coordinate grid and answer the questions.

QUESTIONS:

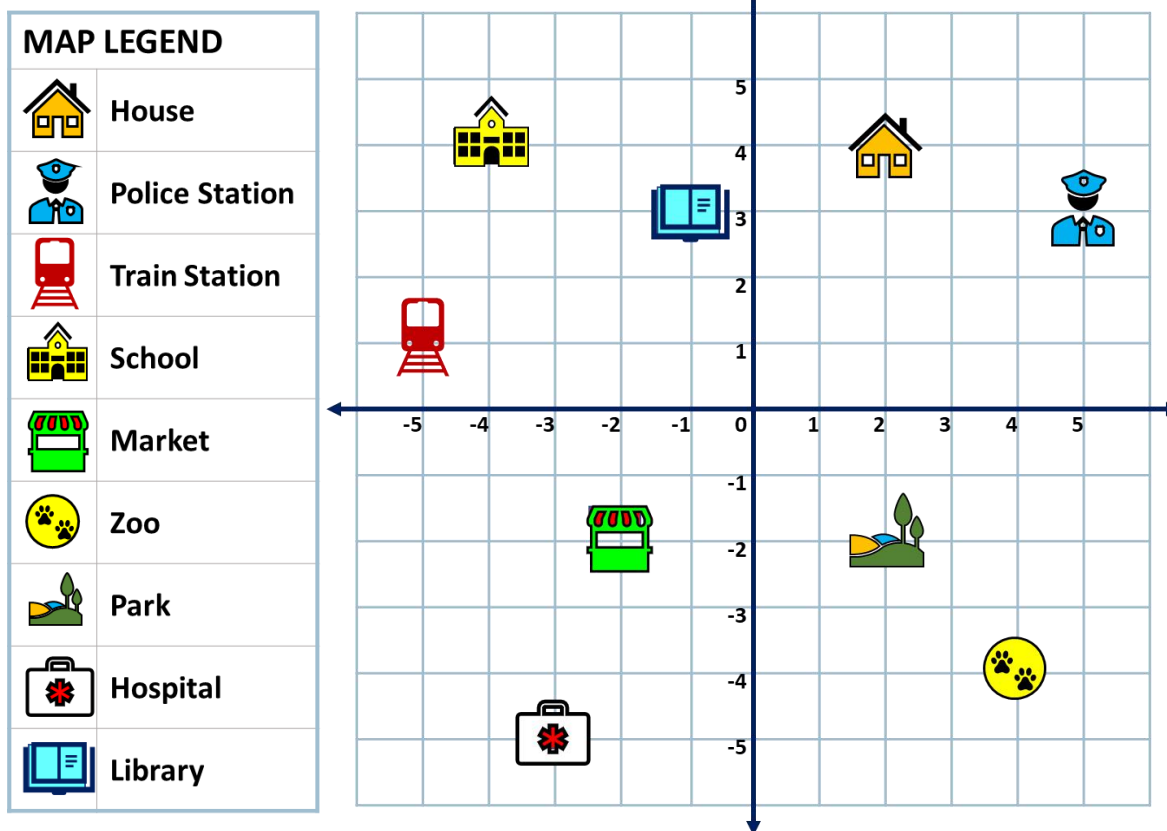

- At which coordinate point is the school located? _____
- What place can be found at the coordinate point $(-5, 1)$? _____
- What place can be found at the coordinate point $(5, 3)$? _____
- At which coordinate point is the hospital located? _____
- What place can be found at the coordinate point $(-1, 3)$? _____
- At which coordinate point is the zoo located? _____
- At which coordinate point is the market located? _____
- At which coordinate point is the house located? _____
- What place can be found at the coordinate point $(2, -2)$? _____
- What places are in Quadrant III? _____

Maps with coordinate grids

Grade 4 Geometry Worksheet

Study the coordinate grid and answer the questions.

QUESTIONS:

- At which coordinate point is the school located? (-4,4)
- What place can be found at the coordinate point (-5,1)? Train Station
- What place can be found at the coordinate point (5,3)? Police Station
- At which coordinate point is the hospital located? (-3,-5)
- What place can be found at the coordinate point (-1,3)? Library
- At which coordinate point is the zoo located? (4,-4)
- At which coordinate point is the market located? (-2,-2)
- At which coordinate point is the house located? (2,4)
- What place can be found at the coordinate point (2,-2)? Park
- What places are in Quadrant III? Hospital and Market
